DESCRIPTION OF PROPOSED WORK*: _____

CUBIC YARDS OF MATERIAL: _____

AMOUNT OF DISTURBANCE PROPOSED** (SQ. FT.): _____

*Projects involving changes in existing land contours may be required to submit a grading plan including, but not limited to, lot lines, current contours, proposed contours, utility easements, waterways, and drainage provisions. Adequate drainage provisions and ground cover are required on all projects. All projects are subject to the regulations described in the Township's Slope Control Ordinance.

**Disturbance includes, but is not limited to, activities such as clearing and grubbing, excavation, etc. An erosion and sediment control (E&S) plan is required for any projects over 5,000 sq. ft. of disturbance and may require review and approval from the Allegheny County Conservation District (ACCD) at the Township's discretion. All projects are subject to the stormwater regulations described in Township Ordinance #329.
